

## **Announcement on Adding Cancellation API for ETP Subscription/Redemption Orders on Huobi Global**

Dear users:

Huobi Global has added the cancellation API for ETP subscription and redemption orders and optimized the retrieve API, allowing users to cancel ETP orders easily. Details are as follows:

- 1) Cancellation of Single Subscription/Redemption Order  
POST /v2/etp/{transactId}/cancel  
API Key Permission: transaction  
Frequency Limit: 1 time/second
- 2) Cancellation of Batch Subscription/Redemption Orders  
POST /v2/etp/batch-cancel  
API Key Permission: transaction  
Frequency Limit: 1 time every 5 seconds
- 3) Adding “Cancelled” to the enumeration data of the ETP subscription/redemption retrieve parameter - transactStatus

Effective Date:December 15, 2020 (GMT+8)

Please check [Huobi API Docs](#) for details.

Huobi Global

November 20, 2020 (GMT+8)

### **How will the newly-added APIs affect me?**

API users need to evaluate how the API improvements will help with their trades and update relevant Apps accordingly.

All changes will be uploaded to [Huobi API Docs](#) upon the effectiveness of the above announcement.

## Details

### Cancellation of Single Subscription/Redemption Order

POST /v2/etp/{transactId}/cancel

#### Request Parameter

Parameter	Mandatory	Length	Type of Data	Description
